

Britannia Strikes Gold at RoSPA Awards

Cheltenham-based Britannia Construction is celebrating winning one of the prestigious Gold RoSPA Occupational Health and Safety Awards in 2010.

David Rawlins, RoSPA Awards Manager, said: "Britannia has shown commitment to protecting the health and well-being of its employees and others. Organisations which do this deserve to have such dedication recognised and that's where the RoSPA Awards come in.

"As well as there being clear ethical reasons and legal requirements for good health and safety management, there is also a strong business case. RoSPA is delighted to publicly honour organisations which have demonstrated their work to improve performance in this sphere."

Managing Director of Britannia Construction, Paul Halfpenny, added: "The health and safety of our employees, and all who come into contact with our business, is central to Britannia's operations. Our health and safety policy embraces not just our staff but also subcontractors and suppliers. I'm delighted that the high standards we have achieved have been rewarded and reflect the quality of care evident throughout our business. "

The RoSPA Awards are not just about reducing the number of accidents and cases of ill-health at work; they help to ensure that organisations have good health and safety management systems in place.

RoSPA Gold Award winners have achieved a very high level of performance, demonstrating well developed occupational health and safety management systems and culture, outstanding control of risk and very low levels of error, harm and loss.
